Opening hours: 10.30am – 6pm

Admissions: Trade visitors

Venue: Suntec Singapore

Post event review:

Being the sales agent of Hyundai for marine engines, the Marine Division aims to promote and showcase the powerful and beneficial performance of Hyundai HiMSEN Engine in the marine industry. HiMSEN Engines are excellent for Marine Propulsion, Gensets & Power Plant(PPS). It is the MOST Practical Engine in the WORLD. In participation as an exhibitor, CINTA ASIA aims to profile the company as a trustworthy and credible marine engine provider, and to build up network with decision makers participating in OSEA2008.

In portrayal of CINTA ASIA as a service-oriented firm that places emphasize on connecting with the clients/partners, our booth are constructed using comfortable cushioned seats and bar counter with alcoholic drinks and snacks provided.

The overall response during OSEA exhibition has been overwhelmed, and we thanked our respected clients and attendees who had turned up at our booth. Besides the fantastic rapport building sessions with our existing clients, valuable new leads were also generated from the participation of OSEA2008. CINTA ASIA (SINGAPORE) PTE LTD receives well-coverage across media, and live interview was done between MarineBiz TV and our colleague, which will be showcase in Marine Biz TV website and [here](#) (click to video link).
